Welcome!

The fun is about to begin!

I designed the K'NEX building system for kids like you – kids who want to build in a whole new way. Using our snap-together Rods, Connectors and color-coded instructions, you can build the models we've designed – or you can use your imagination and build cool models of your own! That's what K'NEX is all about – getting an idea and making it happen. Just like I did when I invented K'NEX!

Joel Glickman
Inventor of K'NEX

About the Set

Do you love to build? This building set is especially for you! Use the step-by-step instructions or use your imagination to build creations of your own. There's something for everyone, from beginners through K'NEXperts.

CAUTION: Keep hair, fingers, face, and clothing away from all moving parts.

K'NEX Building Basics

Hi! I'm your K'NEX building buddy. You'll find models for three levels of building. Look for me before each build, holding up a sign to show you how difficult each model will be. Look for the 3 building buddies below:

Greater Challenge

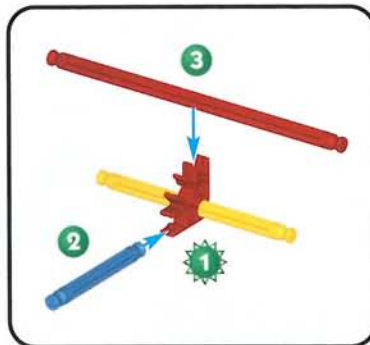

Spacers

There are places in your model where you need to use Spacers. Be sure to count them carefully.

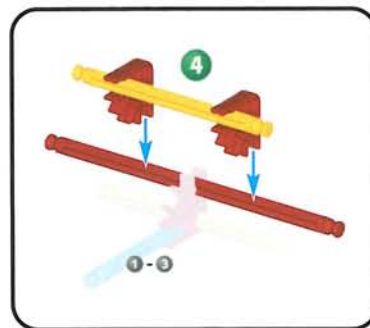

Ready, Set, Build

To begin your model, find the  and follow the numbers. Each piece has its own shape and color. Just look at the picture, find the pieces in your set that match what you see, and snap them together. Try to hold your model in the same direction as in the picture so you will attach your pieces to the right place.

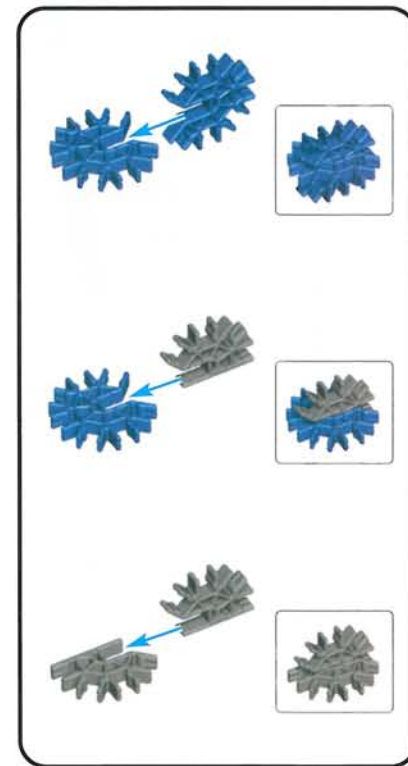

Moving On

The faded colors tell you this section is already built. You'll want to connect the new section to the place where the arrows are pointing. This piece will be in full color.

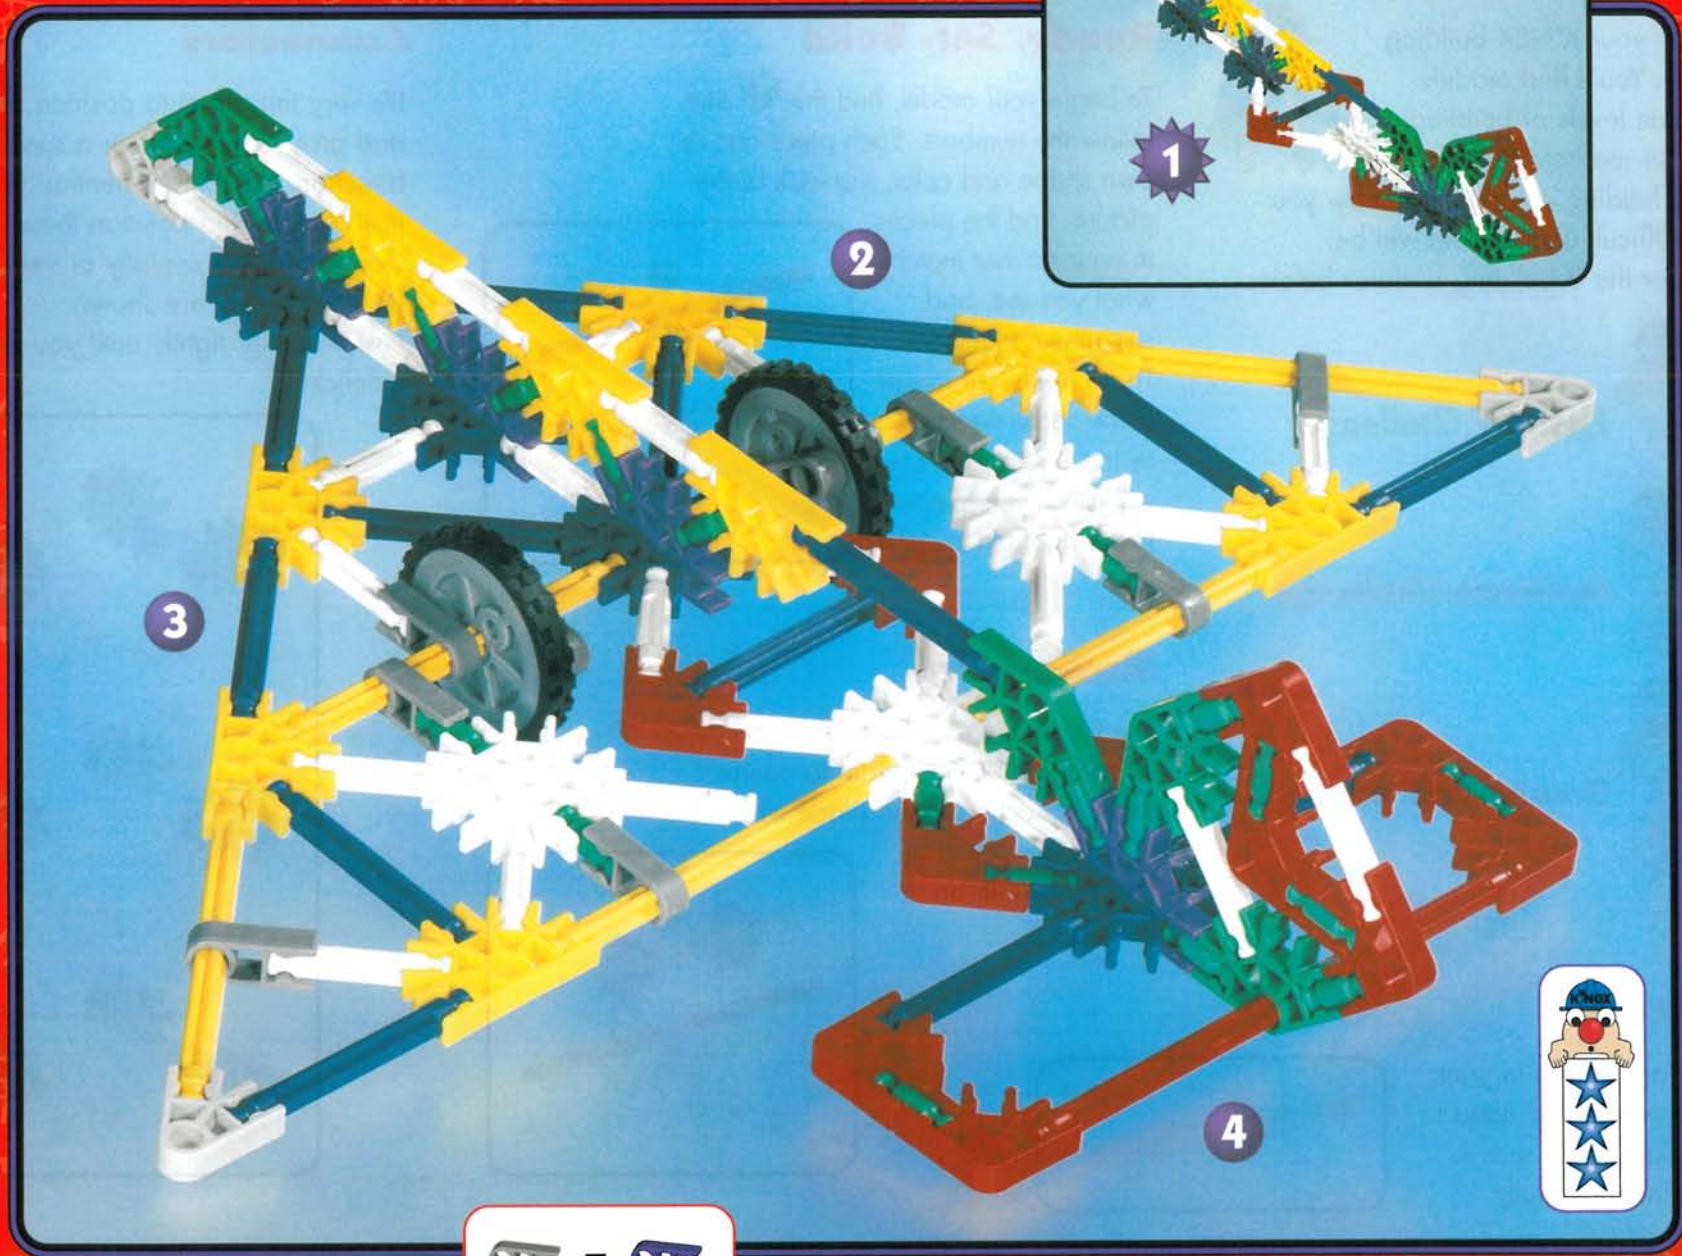

Connectors

It's very important to position blue and gray Connectors in a specific direction. Pay close attention to the instructions, and position these Connectors horizontally or vertically exactly as they are shown. Push together tightly until you hear a "click".

KLAAR OM TE BOUWEN

Om met je model te beginnen, vind eerst het nummer 1 en volg de nummers. Elk stuk heeft zijn eigen vorm en kleur. Kijk gewoonweg naar de afbeeldingen, vind de overeenstemmende stukken terug in je geheel en maak ze aan mekaar vast. Tracht je model in dezelfde richting te plaatsen als de aanwijzingen terwijl je bouwt en monteert.

VERDER NOG...

De vervaagde kleuren duiden aan dat dit deel reeds is opgebouwd. Gelieve het nieuwe deel vast te koppelen op de plaats aangeduid door de pijlen. De nieuwe delen die je toevoegt verschijnen in volle kleur.

KOPPELSTUKKEN

Er zijn blauwe en zilveren koppelstukken met speciale lange gleuven. Ze schuiven in mekaar zoals je kunt zien op de afbeeldingen. Duw deze onderdelen in mekaar tot je een "klik" hoort. Verzeker je ervan dat de tandwielen in mekaar passen.

TUSSENSTUKKEN

In je model zijn er plaatsen waar blauwe en zilveren tussenstukken moeten toegevoegd worden. Verzeker je ervan de juiste kleur te gebruiken en tel ze zorgvuldig.

PARENTS ! Voilà comment vous pouvez aider votre enfant à construire à l'aide de K'NEX !

PRÊT À MONTER

Pour commencer ton modèle, trouve le 1 et suis les chiffres. Chaque pièce a sa propre forme et sa propre couleur. Il suffit de regarder les illustrations pour retrouver les pièces correspondantes dans le jeu et de les connecter ensemble. Essaie de situer ton modèle dans le même sens que les instructions durant le montage.

CONNECTEURS

Tu trouveras des connecteurs bleus et argentés comportant des fentes extra-longues. Ils se glissent l'un dans l'autre tel qu'illustré. Pousse les pièces ensemble jusqu'à ce que tu entendes un "clac". Vérifie que les engrenages s'enclenchent bien les uns dans les autres.

PIÈCES D'ÉCARTEMENT

Il y a des endroits dans ton modèle où tu dois ajouter des pièces d'écartement bleues et argentées. Assure-toi d'utiliser la couleur exacte et de compter les pièces avec soin.

ELTERN! So können Sie ihrem Kind beim Bauen mit K'NEX helfen!

AUF DIE PLÄTZE, FERTIG, LOS! DAS BAUEN BEGINNT

Um mit dem Bauen deines Modells zu beginnen, suche die Nummer 1 und folge den laufenden Nummern. Jedes Teil hat seine eigene Form und Farbe. Schau dir einfach die Abbildungen an, such die Teile in deinem Bausatz, die so aussehen wie das, was du auf der Abbildung siehst und steck sie ineinander. Versuche, dein Modell beim Zusammenbauen so zu orientieren, dass es in die gleiche Richtung weist, wie es in den Anleitungen beschrieben und gezeigt wird.

UND WEITER GEHT'S

Blasse Farben weisen darauf hin, dass dieser Streckenabschnitt bereits zusammengebaut ist. Der neue Streckenabschnitt wird dort befestigt, worauf die Pfeile deuten. Die neuen Teile, die du anbaust, sind knallbunt angezeigt.

STECKANSCHLÜSSE

Blaue und silberfarbene Steckanschlüsse haben besonders lange Schlitze. Wie du auf der Abbildung sehen kannst, lassen sie sich ineinander schieben. Achte beim Aneinanderfügen dieser Teile darauf, dass du ein Klickgeräusch hörst. Erst dann sind die Teile fest miteinander verbunden. Vergewissere dich, dass die Zahnräder ineinander greifen.

ABSTANDSSTÜCKE

An bestimmten Stellen in deinem Modell musst du Abstandshalter, sogenannte Spacer, einbauen. Diese Abstandshalter sind blau und silberfarben. Achte darauf, dass du die richtige Farbe wählst und dass du die richtige Anzahl davon verwendest.

GENITORI! Ecco come potete aiutare i vostri figli a costruire con K'NEX!

PRONTI, PARTENZA, VIA ALLA COSTRUZIONE

Per iniziare il modello, cerca il numero 1 e segui i numeri. Ogni pezzo ha una sua forma e un suo colore. Guarda la figura, trova i pezzi corrispondenti nel set e mettili insieme. Cerca di tenere il modello nella stessa direzione della figura e in tal modo sarà più semplice attaccare i pezzi nei posti giusti.

ANDIAMO AVANTI

I colori spenti ti dicono che questa sezione è già stata costruita. Dovrai collegare la nuova sezione al punto indicato dalla punta della freccia. Questo pezzo avrà un colore brillante.

CONNETTORI

È molto importante posizionare i connettori blu e argento in una specifica direzione. Presta molta attenzione alle istruzioni e posiziona i connettori orizzontalmente o verticalmente proprio come illustrato. Spingi con forza fino ad udire un "clac". Accertati che le marce ingranano.

SPAZIATORI

Ci sono punti nel tuo modello a cui dovrai aggiungere spaziatori blu e argento. Accertati di contarli attentamente.
